Skills

- **Languages**: C++, JavaScript, C, PHP
- **Frameworks**: HTML and CSS, NodeJS, React
- **Tools/Platforms**: MySQL, MongoDB, Git, GitHub, VS code
- **Soft Skills**: Problem-Solving, Team Player, Project Management, Adaptability

Projects

Agro Smart –Agriculture Web Application | *GitHub* Feb' 26 - Mar' 26

- Engineered a full-stack web application to provide farmers with intelligent crop recommendations and real-time agricultural insights.
- Implemented secure authentication and authorization mechanisms to ensure personalized and protected user access.
- Integrated external weather and crop data APIs to deliver real-time, data-driven farming recommendations.
- **Tech used:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, REST APIs

Automated Question Paper Generator | *GitHub* July' 25 - May' 25

- Developed an automated system to generate structured and formatted question papers using algorithmic filtering and greedy selection logic.
- Implemented dynamic question filtering based on difficulty, marks, and topic distribution to ensure balanced output.
- Built a fast and user-friendly CLI interface enabling automated generation within seconds, reducing manual effort by 90%.
- **Tech used:** C++, Data Structure and Algorithm

Sentiment Call Analyzer | *GitHub* Jan' 25 - May' 25

- Created a tool to analyze customer service call recordings and classify sentiment into positive, negative, and neutral using NLP-driven processing.
- Integrated speech-to-text and sentiment scoring mechanisms, achieving 85% accuracy in emotional interpretation.
- Designed a visual dashboard for trend monitoring and performance insights, helping reduce average call resolution time by 30%.
- **Tech used**: HTML, Tailwind CSS, PHP, JSON, APIs

Training

DSA With C++ | *Certificate* Jul' 25 - Aug' 25

- Trained in Data Structures & Algorithms using C++, focusing on writing optimized, clean, and efficient code for real-world problem-solving.
- Implemented core data structures (arrays, linked lists, stacks, queues, trees, graphs, hash maps) and algorithmic techniques such as recursion, sorting, searching, and greedy/dynamic programming.
- Developed and debugged optimized solutions to complex problems, improving logical reasoning, time–space complexity analysis, and competitive coding skills.

Certificates

- DSA with C++ | LPU | ***Certificate*** Aug' 24
- Python & Django | Udemy | ***Certificate*** Jan' 25
- Introduction to Python | Infosys | ***Certificate*** Feb' 25
- Web Development Bootcamp | Udemy | ***Certificate*** Apr' 25
- Java Programming | LPU | ***Certificate*** May' 25

Achievements

- Developed 3 major academic projects demonstrating strong problem-solving and coding abilities | ***Live***
- Consistently recognized for dedication to learning and technical improvement. | ***Live***
- Achieved strong academic performance and team collaboration in university projects | ***Live***

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.12*** *Since August 2025*
- **Nandan Kids Higher Secondary School** Rewa, Madhya Pradesh
  Intermediate; ***CGPA: 8.19*** *April 2022 – March2023*
- **Nandan Kids Higher Secondary School** Rewa, Madhya Pradesh
  Matriculation; ***CGPA: 9.03*** *April 2016 - March 2018*
